Global Maritime Services

Döhle Corporate and Trust Services Limited (DCTS) can offer clients a wide variety of services either directly or in cooperation with the Döhle group and can provide knowledge and expertise at every level of vessel management and ownership. We can assist with corporate structuring and financing solutions for commercial vessels across a range of jurisdictions, from establishing crew management and technical management services to assistance with vessel finance, providing a full setup and administration service of vessel holding corporate vehicles and structures. With support from the Döhle (IOM) group of companies on the Isle of Man and also in cooperation with the head office of Peter Döhle Schiffahrts-KG in Hamburg we have every aspect of ship management covered and can deliver a first class service to fit all client needs and requirements.

With DCTS being based on the Isle of Man we are in close proximity to the head office of a flag state that continues to emerge into the global market and can boast attractive traits including the right to fly the Red Ensign whilst being amongst the most cost effective flag states available and charging no annual tonnage dues. The Isle of Man's Ship Registry was established by the Isle of Man Government initially as a Marine Administration and then later became a registry in its own right. This registry allows the registration of commercial vessels as well as private and commercial yachts and has continued to develop and grow over the past few years, seeing its volume both in fleet numbers and gross tonnage reach record highs. DCTS have successfully completed a number of projects in liaison with the Isle of Man Ship Registry and we continue to uphold a close relationship in order for us to be up to speed with any developments within this flag state, which in turn allows us to be able to offer the most efficient service to our clients in a rapidly changing global maritime environment.

Vessel registration services and representative person services can be provided not only for the Isle of Man flag but also in popular flag states such as Liberia, Marshall Islands, Malta and Portugal. DCTS has appropriately qualified and experienced individuals who will be able to assess the various desires of the client and will ensure that a high level of service is delivered throughout the duration of the relationship.
